

Wajid Shaikh

Full Stack Developer

Dedicated Developer with 3 Months of experience and a solid foundation in web development. Proficient in React, and JavaScript with a basic understanding of HTML, CSS, and REST APIs. Familiar with Git version control. Eager to contribute to dynamic projects and continue learning in a collaborative environment.

EDUCATION (2015 – 2019)

Sandip Institute of Engineering and Management,
B.E. (Computer).

WORK EXPERIENCE (2020 – present)

WNS Global Services Pvt. Ltd, Nashik – Sr.Associate

- Working in Shipping and Logistics
- Manage client accounts, serving as the primary point of contact for inquiries, concerns, and problem resolution.
- Audited new team members work on company policies, procedures, and systems to ensure seamless onboarding and consistent service delivery.

Freelancer/Intern at CodeFormer, Nashik (Dec 2023 – present)

- Develop interactive & efficient user interfaces using ReactJS, Redux, React Hooks, JavaScript, HTML, and CSS. Utilized JSX and Virtual DOM to enhance the performance and usability of web applications.
- Wrote clean, scalable, and efficient code for server-side logic.
- Integrated user facing elements developed by front-end developers with server-side logic.
- Design and implement RESTful APIs to facilitate smooth communication between the client and server.

PROJECTS (May 2023 – present)

Personal Portfolio, [React JS & Tailwind CSS]

- Developed a Portfolio website by Integrating Tailwind CSS for UI to the React Components. Developed a Mode effect - Light / Dark Mode using inbuilt React Hooks.
- Visit the Link: <https://wajid-shaikh.vercel.app/>

CRUD Application with Javascript Validation, [MERN Stack]

- Integrated server-side logic using Node.js and Express.js to handle data processing.
- Utilized Node.js to develop server-side logic for handling data storage and retrieval.
- Visit the Link: <https://washcrudvalidation.vercel.app/>
